RELEVANT WORK EXPERIENCE

Amazon

Bellevue, WAS

Economist Intern (Co-Op)

June 2026-present

- Improving liquidation inventory allocation to maximize recovery while maintaining performance and reducing default risk, by identifying opportunities to shift inventory across channels and strengthen vendor competition.
- Introducing demand-based insights to develop economic pricing for a rising liquidation marketplace, informing assortment, bundling, and pricing strategies to improve sell-through and recovery.

The World Bank Group

Washington, DC

Consultant

December 2024– March 2026

- Analyzed and validated firm-level survey data across sectors and countries for the World Bank's Enterprise Surveys (2024/25/26 waves), constructing datasets used in private sector diagnostics, policy formulation, and academic research.
- Implemented automation in data processing and coding workflows, accelerating processes and reducing errors.

Power Auctions

Washington, DC

Researcher & Quality Assurance Specialist

June 2024 – August 2024; June 2025 – August 2024

- Delivered multilingual auction software to foreign governments, achieving full technical and regulatory compliance and enabling seamless cross-border operations.
- Strengthened auction reliability by streamlining quality control processes and producing precise technical documentation used in multiple national and international auctions.

IESE Business School

Barcelona, CAT

Research Associate

June 2021 – July 2022

- Developed markdown pricing strategies from large-scale field data showing that deeper discounts boost sales and limit cannibalization when competitive pressure and product portfolios expand.

Navarra Center for International Development

Pamplona, NC

Junior Researcher

July 2021 – September 2022

- Produced country-level reports for Guatemala, Ecuador, the Philippines, and South Africa, delivering actionable macro- and microeconomic insights to guide policy and strategic advisory decisions.

D2-Analytics

Madrid, MAD

Data Analyst

March 2020 – June 2020

- Developed and analyzed large-scale search datasets to estimate and forecast regional and temporal tourism demand for governments.
